Education

Ahmedabad Institute of Technology

Sept 2022 – May 2026

- **Course:** BE in information technology
- **Coursework:** Computer Architecture, Comparison of Learning Algorithms, Computational Theory

Projects

Wanderlust - Travel Experience Sharing Web App

wanderlustapp/listing

- Designed a dynamic travel experience-sharing platform allowing users to create, browse, and review listings based on location.
- Implemented user authentication and authorization using Passport.js for secure login and registration.
- Built using MVC architecture with Node.js, Express.js, MongoDB, and EJS templates for frontend rendering.
- Integrated Mapbox for interactive location-based features.

Currency Converter Application

currency-converter Web

- Built a real-time currency converter using core JavaScript and RESTful APIs.
- Utilized Exchange Rate API for accurate currency conversion between multiple currencies.
- Implemented dynamic input handling and conversion logic.

Skills

Languages: HTML, CSS, JavaScript, Node.js, Python

Technologies: Express.js, MongoDB, SQL, Mongoose, RESTful APIs, MVC Architecture, Git/GitHub

Hobbies

- Reading books on technology and personal development.
- Traveling to explore new places and cultures.

Objective

Aspiring Full-Stack Developer: Passionate about building dynamic and scalable web applications with a focus on seamless user experiences. Eager to leverage technical skills in frontend and backend development to create impactful software solutions. Committed to continuous learning and staying updated with emerging technologies.
